

LP® TECHSHIELD® RADIANT BARRIER SHEATHING

America's Original and #1 Brand of Radiant Barrier Sheathing

Installed in more than 2 million homes to date, LP® TechShield® Radiant Barrier Sheathing is the industry's best-selling brand of radiant barrier sheathing. With a track record of proven success, LP TechShield sheathing can be a cost-effective way to boost a home's energy efficiency and improve HERS scores.

Only LP TechShield sheathing features a durable layer of aluminum with patented VaporVents™ technology. Post-lamination incising prevents moisture build-up during and after construction, while the OSB substrate promotes breathability and does not create a vapor barrier.

ADVANTAGES

- Reduces attic temperature by up to 30° F
- Installs like conventional roof sheathing, requiring no additional labor
- 20-year limited warranty
- Patented VaporVents™ technology with post-lamination incising allows panel to dry more quickly than other radiant barrier sheathing
- Can result in an overall lower HERS score
- Manufactured by LP, one of the largest OSB producers, so it is available when and where you need it

Without LP TechShield Radiant Barrier Sheathing

With LP TechShield Radiant Barrier Sheathing
