Safe Stuff PPE To Go

Product Information

Duro-Last® Hand Sanitizer

Available in 1 gallon jugs, Duro-Last Hand Sanitizer is an antiseptic product intended to prevent the spread of infections. While the CDC recommends consumers use an alcohol-based hand sanitizer that contains at least 60% alcohol, Duro-Last's Hand Sanitizer formula contains 80% alcohol. Each 1 gallon jug order comes with one empty 2 oz. spray bottle and one empty 4 oz. to administer.

Duro-Last® Face Coverings

As a part of social distancing regulations in many states throughout the country, face coverings are now required for offices, jobsites and public spaces. Stock up on face coverings made from a soft, reusable polyester and cotton blend, ensuring your crews stay compliant and safe. Our face covers are lightweight, breathable and machine washable. Additionally, Duro-Last face coverings can be doubled up to achieve multiple layers of protection as recommended by CDC guidelines.

Duro-Last® Sanitizing Wipes

Available in 8" x 18" (one square foot of material) and 12" x 24" (two square feet of material), Duro-Last Sanitizing Wipes are dramatically larger than traditional wipes. Plus, Duro-Last Sanitizing Wipes are made of 35% rayon and 65% polyester fleece material, meaning that they not only disinfect more surface area in one swipe, but they are designed to stand up to tough jobsite conditions without tearing or falling apart.

Duro-Last® Caution Tape

Easily create designated entrance and exit points on your jobsites, direct foot traffic on, and block off work areas with this Duro-Last branded caution tape. The material can also be used to create safety flags on the rooftop!

Saginaw, MI | Grants Pass, OR | Sigourney, IA |
Jackson, MS | Carrollton, TX | Ludlow, MA
